ROARING TOWARDS INNOVATION

Transforming The Urban Jungle To Our Habitat

In a way, we all are fighting a common enemy-
the rising threat of environmental pollution.
With each of our initiatives, we make sure to
propose something significant for mankind.
Either it could be reducing the carbon footprints
or finding a suitable and economical way of
sustainable mobility.

We are determined to do the impossible with
sheer hard work and willpower.

We intend to bring in innovation driven by passion.

While setting up new milestones and conquering
new horizons with our esteemed distribution network
we intend to bring in the thought that Wardwizard is!

"Transforming the Urban Jungle To Our Habitat
with Roaring towards Innovation"

That's what DEFINES US!

Largest Audience Segment

Catering to all age groups from 16 to 60 years

State – Of – The Art OEM Plant

One of India's largest and state-of-the-art manufacturing facility of electric two-wheelers

Around 6000 Employment Opportunities

The plant is estimated to generate around 6000 direct and indirect employment opportunities

Brand Initiation

Wardwizard Innovations & Mobility Limited, an innovation-driven company with a current market capitalization of 1800 Cr, is sitting comfortably at the top in the sunrise segment. It is also the country's 1st Electric Vehicle Manufacturer which got listed in BSE with the core business of EV Manufacturing. With a dedicated management team under the direction of Mr. Yatin Gupte, Wardwizard has no bounds when it comes to exploring the unexplored domains and acing it.

Flagship Brand's Portfolio

Wardwizard's flagship brand Joy e-bike peddled its way into the EV segment by first introducing electric bicycles in the year 2016. And within no time, they received great demand from the youth. This success further charged us to introduce low-speed two-wheelers like Gen Next, Glob, Wolf, and Monster, which didn't require any license or registration to drive. These electric vehicles gained a tremendous amount of popularity amongst everyone right from 16 to 60 years.

State Of The Art Facility

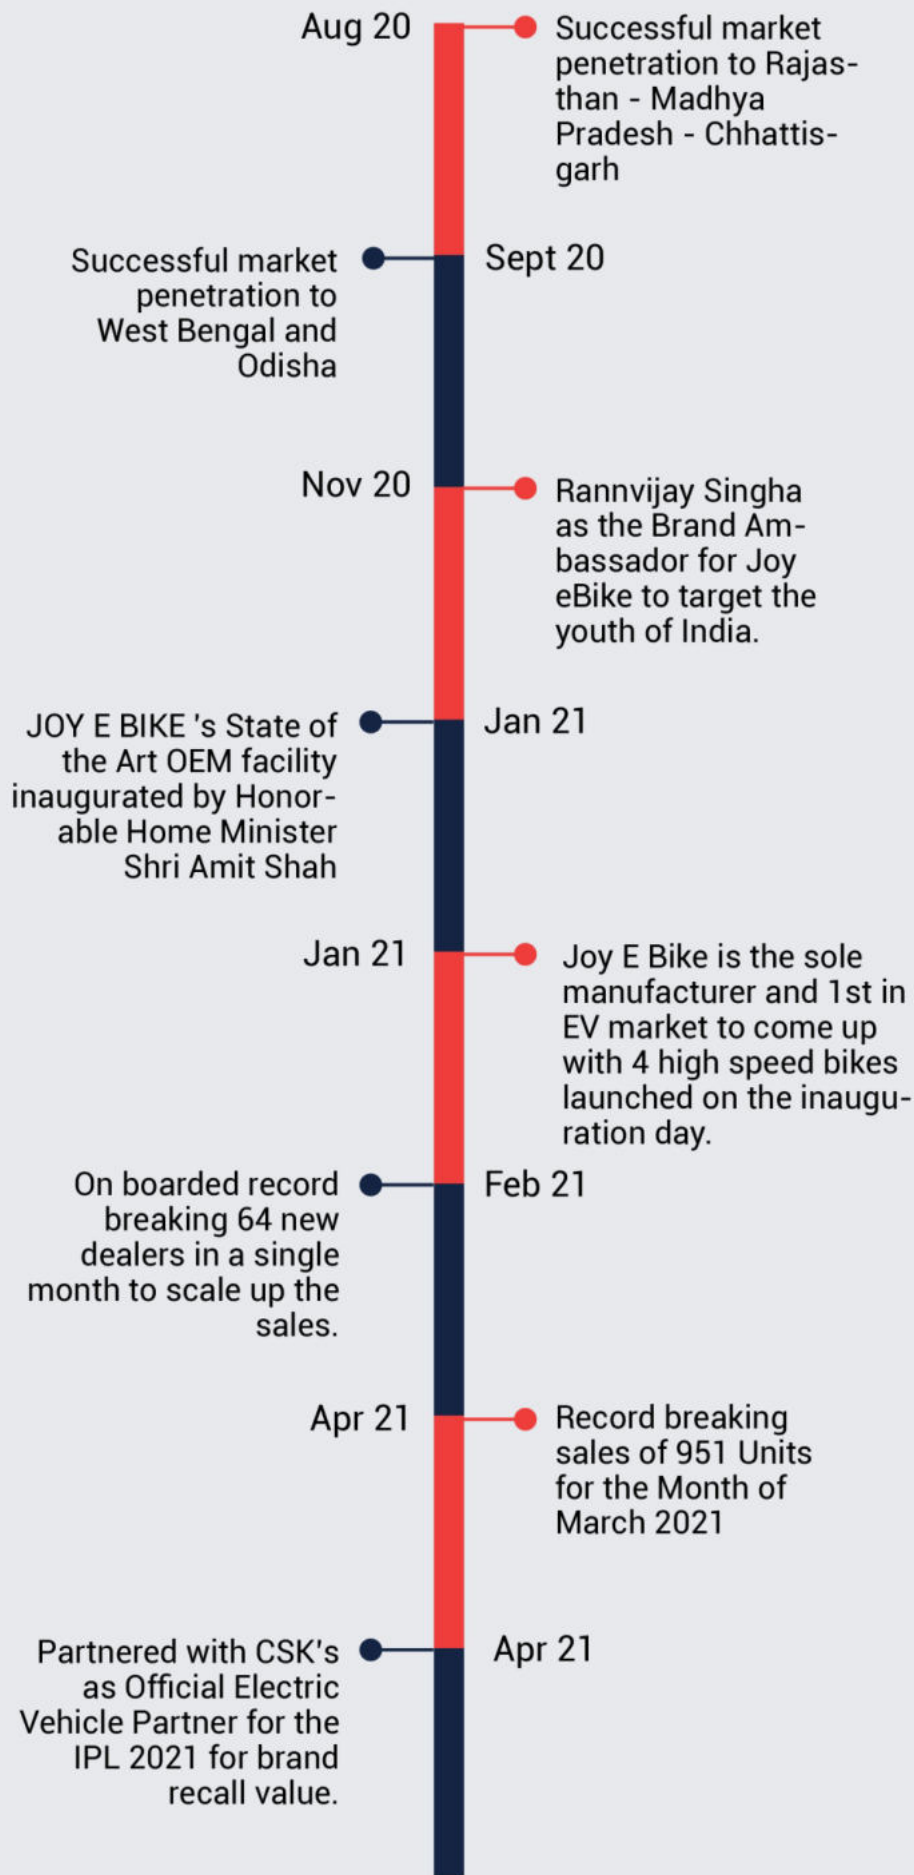

But we didn't just stop here, Wardwizard inaugurated one of India's largest and State of the art manufacturing facility of electric two-wheelers was virtually inaugurated by Shri Amit Shah, Hon'ble Minister for Home Affairs, Government of India. The plant is estimated to generate around 6000 direct and indirect employment opportunities in the coming times and empower the locals.

Current Roadmap

And to add more towards our green initiative and thus to cater to the growing demand for high-speed e-bikes, we first introduced E-Monster in 2019 and later Thunderbolt, Hurricane, Beast, and Skyline in Jan 2021.

Key Performance Indicators

Letter to Shareholders

Dear and Esteemed Fellow Shareholders,

It gives me a huge prerogative to write to you and present the Annual Report for FY20. I hope this letter finds you safe and sound.

Mr. Yatin Gupte
Managing Director & Chairman
Wardwizard Innovations & Mobility Ltd

Challenging Year

"As the intense impact of the COVID Pandemic wave stretched across , state governments imposed lockdowns and allied restrictions to control the spread. Considering this scenario, customers preferred to defer their purchase decisions. Consequently, demand was muted and the automotive industry, in general, witnessed a slowdown in activities with most networks non-operational. But given the stringent precautions and an ongoing nationwide vaccination drive, active cases have begun declining in most states. The Company is closely monitoring the ground situation and, while strictly adhering to local guidelines, cautiously undertaking steps to resume operations. The utmost precautions are in place at all touch points since the top priority remains the safety of our staff and customers. As the fuel prices have remained stagnant on the higher side, we are confident that demand for electric two-wheelers will keep gathering robust momentum month on month.

Positive Outcome

We are delighted to achieve a positive outcome in one of the most challenging years in the country. We have Achieved Growth across all key metrics led by volume, realisation, and new offerings. Boosting the sales backed by the growing demand of electric two wheelers in the entire nation, the company sold more than 1,623 units of electric two-wheelers in Q4 '21 as compared to 929 units in Q3'21. Registered the growth of more than 74.70% within a quarter for its popular range of products including the both electric motorcycles and scooters. Watching events unfold throughout the year, we were keenly focused on what we, as a company, could do to serve. As a letter to shareholders, it is my pleasant duty to inform you that recently, your company has reached the market capitalization of 1800 Cr.

Atmanirbhar Bharat & Make In India

Inspired by the clarion call of Atmanirbhar Bharat and Make in India by our PM Shri Narendra Modi, we at Wardwizard are happy

to complete the expansion in his soul vision. We intend to manufacture all the parts & components of the electric bikes right from the chassis to batteries and manufacture a completely robust quality vehicle made especially for Indian Terrains for the growing demand for electric bikes.

Outlook

With the growing demand for electric bikes, we expect to grab 25% market share of the overall EV two-wheeler segment by 2025. We are grateful to the government for emphasizing this industry, as Electric Vehicles are the only solution towards a sustainable development for the nation, and this time it will start from the state of Gujarat. We take it as our responsibility to make available the most appropriate product for our customers that are not only class-leading but also cost-effective. With our recently inaugurated state-of-the-art facility in Vadodara and strong product portfolio, we are committed to the government's vision of growth." Also, you will see the accomplishments of a year that was both innovative and exceptional. All credit goes to our talented team of employees – people who approach their work with a passion for doing what's right for our stakeholders and what's responsible for our shareholders. We have positioned Ward Wizard to grow our great company, and we look forward to another year of strong performance and focused improvement.

POLICY ON PRESERVATION OF DOCUMENTS

INTRODUCTION

In terms of Regulation 9 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), the Board of Directors (the "Board") of Manvijay Development Company Limited (MDCL) has adopted this Policy at its meeting held on May 28th, 2016, for Preservation of Documents, as required under applicable regulations.

This Policy is effective from May 28th 2016.

In any circumstance, where the terms of this policy differ from any existing or newly enacted law, rule, regulation or standard governing the Company, the law, rule, regulation or standard will take precedence over this Policy and procedures until such time as this Policy is changed to conform to the law, rule, regulation or standard.

OBJECTIVES

To determine preservation period for records/documents based on their reference value and legal requirements. The following aspects are considered while arriving at the preservation period:

- Company's own information retrieval needs (reference value)
- Statutory requirements under respective statutes.
- Litigation requirements
- To ensure easy retrieval.
- To ensure that unwanted records do not occupy storage space.

DEFINITION

In this policy unless the context otherwise requires

- a. "Act" means the Companies Act, 2013 and rules made there under, as amended from time to time
- b. "SEBI Regulations" shall mean Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as may be amended from time to time
- c. "Company" means Manvijay Development Company Limited
- d. "Document" includes summons, notice, requisition, order, declaration, form and register, whether issued, sent or kept in pursuance of this Act or under any other law for the time being in force or otherwise, maintained on paper or in electronic form;
- e. "Key Managerial Personnel" or "KMP" shall have the same meaning ascribed to it under the Act.
- f. "Board" or "Board of Directors" shall mean the Board of Directors of Manvijay Development Company Limited, as may be re-constituted from time to time.
- g. "Financial Year" shall have the same meaning ascribed to it under the Act.
- h. "Electronic Form" with reference to information means any information generated, sent, received or stored in media, magnetic, optical, computer memory, micro film, computer generated micro fiche or similar device. The words or expressions used but not defined herein, but defined under Companies Act, 2013 or the SEBI Regulations shall have the same meaning assigned therein.

SCOPE

These guidelines will be valid for determining preservation period for commercial and legal records; and will be applicable to all locations of the Company.

RESPONSIBILITY

The departmental head concerned will be responsible for the maintenance, preservation and destruction of records pertaining to the respective Department.

PRESERVATION PERIOD

The preservation period starts with the conclusion of financial year, in which the document has been formed or the last entry was made; the preservation period of agreements starts with the end of the financial year in which the agreement period expires.

For determining the preservation period, the records are categorized into following three Categories:

Category & Description	Period of Preservation
Records/documents with short reference value – i.e. Records, which are to be preserved for a short period for enquiry, evidence, verification, evaluation, etc.	Less than 8 years
Records/documents required to be maintained as per statutory requirements and having higher reference value – i.e. records having contractual/legal implications, which need to be preserved for a prescribed periods per statutory requirement; and records, which need to be, preserved for a particular period according to Company's own reference needs.	Documents to be preserved for a period of 8 to 12 years

RELATED PARTY TRANSACTION POLICY

1. Purpose of this policy:

A. Manvijay Development Company Limited is governed, amongst others, by the rules and regulations framed by Securities Exchange Board of India ("SEBI"). SEBI has mandated every listed company to formulate a policy on materiality of Related Party Transactions and also on dealing with Related Party Transactions.

B. Accordingly, the Company has formulated this policy on materiality of Related Party Transactions and on dealing with Related Party Transactions ("Policy"). This Policy regulates all transactions between the Company and its Related Parties (as defined below).

C. The Audit Committee will review the Policy periodically and may amend the same from time to time and propose the same to the Board for approval.

2. Definitions

A. "Act" shall mean the Companies Act, 2013 and includes any amendment thereof.

All capitalized terms used in this Policy but not defined herein shall have the meaning assigned to such term in the Act and the Rules thereunder and the Listing Agreement, as amended from time to time.

3. Review and approval of Related Party Transaction

Approval of related party transactions

A. Audit Committee

All the transactions which are identified as related party transactions should be pre-approved by the Audit Committee before entering into such transaction. The Audit Committee shall consider all relevant factors while deliberating the related party transactions for its approval.

Any member of the Committee who has a potential interest in any related party transaction will rescue himself and abstain from discussion and voting on the approval of the related party transaction. A related party transaction which is (i) not in the ordinary course of business, or (ii) not at arm's length price, would require approval of the Board of Directors or of shareholders as discussed subsequently.

The Audit Committee may grant omnibus approval for related party transactions which are repetitive in nature and subject to such criteria/conditions as mentioned under clause 49 and such other conditions as it may consider necessary in line with this policy and in the interest of the Company. Such omnibus approval shall be valid for a period not exceeding one year and shall require fresh approval after the expiry of one year.

Audit Committee shall review, on a quarterly basis, the details of related party transactions entered into by the Company pursuant to the omnibus approval. In connection with any review of a related party transaction, the Committee has authority to modify or waive any procedural requirements of this policy.

A related party transaction entered into by the Company, which is not under the omnibus approval or otherwise pre-approved by the Committee, will be placed before the Committee for ratification

B. Board of Directors

• In case any related party transactions are referred by the Company to the Board for its approval due to the transaction being (i) not in the ordinary course of business, or (ii) not at an arm's length price, the Board will consider such factors as, nature of the transaction, material terms, the manner of determining the pricing and the business rationale for entering into such transaction. On such consideration, the Board may approve the transaction or may require such modifications to transaction terms as it deems appropriate under the circumstances. Any member of the Board who has any interest in any related party transaction will rescue himself and abstain from discussion and voting on the approval of the related party transaction.

C. Shareholders

• If a related party transaction is (i) a material transaction as per clause 49, or (ii) not in the ordinary course of business, or not at arm's length price and exceeds certain thresholds prescribed under the Companies Act, 2013, it shall require shareholders' approval by a special resolution. In such a case, any member of the Company who is a related party, shall not vote on resolution passed for approving such related party transaction.

D. Reporting of related party transactions

• Every contract or arrangement, which is required to be approved by the Board/shareholders under this Policy, shall be referred to in the Board's report to the shareholders along with the justification for entering into such contract or arrangement.

4. Limitation and Amendment

In the event of any conflict between the provisions of this Policy and of the Act or Listing Agreement or any other statutory enactments, rules, the provisions of such Act or Listing Agreement or statutory enactments, rules shall prevail over this Policy. Any subsequent amendment / modification in the Listing Agreement, Act and/or applicable laws in this regard shall automatically apply to this Policy.

WHISTLE BLOWER POLICY & VIGIL MECHANISM

1. Preface

- a. The Company believes in the conduct of the affairs of its constituents in a fair and transparent manner by adopting highest standards of professionalism, honesty, integrity and ethical behaviour. Towards this end, the Company has adopted the Code of Conduct ("the Code") as prevalent from time to time, which lays down the principles and standards that should govern the actions of the Company, its Associates and its employees. Any actual or potential violation of the Code, howsoever insignificant or perceived as such, would be a matter of serious concern for the Company. The role of the Directors, Employees in pointing out such violations of the Code cannot be undermined. There is a provision under the Code requiring employees to report violations, which states:
 "Every employee of a the company shall promptly report to the management, and / or third-party ethics helpline, when she / he becomes aware of any actual or possible violation of the Code or an event of misconduct, act of misdemeanour or act not in the company's interest. Such reporting shall be made available to suppliers and partners, too.
 Any employee can choose to make a protected disclosure under the whistleblower policy of the company, providing for reporting to the chairperson of the audit committee or the board of directors or specified authority. Such a protected disclosure shall be forwarded, when there is reasonable evidence to conclude that a violation is possible or has taken place, with a covering letter, which shall bear the identity of the whistleblower.
 The company shall ensure protection to the whistleblower and any attempts to intimidate him/her would be treated as a violation of the Code"
- b. Section 177 (9) of the Companies Act, 2013 mandates the following classes of companies to constitute a vigil mechanism –
 Every listed company;
 Every other company which accepts deposits from the public; Every company which has borrowed money from banks and public financial institutions in excess of Rs. 50 crores.
 Further, the Listing Agreement between listed companies and the Stock Exchanges provides for a mandatory requirement for all listed companies to establish a mechanism called the 'Whistleblower Policy' for directors and employees to report concerns of unethical behaviour, actual or suspected, fraud or violation of the Company's code of conduct or ethics policy.
- c. Accordingly, this Whistleblower Policy ("the Policy") has been formulated with a view to provide a mechanism for directors and employees of the Company to approach the Chairman of the Audit Committee of the Company.
- a. **2. Definitions**
 The definitions of some of the key terms used in this Policy are given below. Capitalised terms not defined herein shall have the meaning assigned to them under the Code.
- b. "Associates" means and includes vendors, suppliers and others with whom the Company has any financial or commercial dealings.
- c. "Audit Committee" means the Audit Committee of Directors constituted by the Board of Directors of the Company in accordance with Section 177 of the Companies Act, 2013 and read with the Stock Exchanges.
- d. "Employee" means every employee of the Company (whether working in India or abroad), including the directors in the employment of the Company.
 "Code" means the Code of Conduct.

- e. "Director" means every Director of the Company, past or present.
- f. "Investigators" mean those persons authorised, appointed, consulted or approached by the Chairman of the Audit Committee and include the auditors of the Company and the police.
- g. "Protected Disclosure" means any communication made in good faith that discloses or demonstrates information that may evidence unethical or improper activity.
- h. "Subject" means a person against or in relation to whom a Protected Disclosure has been made or evidence gathered during the course of an investigation.
- i. "Whistleblower" means an Employee or director making a Protected Disclosure under this Policy.

3. Scope

- a. This Policy is an extension of the Code of Conduct. The Whistleblower's role is that of a reporting party with reliable information. They are not required or expected to act as investigators or finders of facts, nor would they determine the appropriate corrective or remedial action that may be warranted in a given case.
- b. Whistleblowers should not act on their own in conducting any investigative activities, nor do they have a right to participate in any investigative activities c. other than as requested by the Chairman of the Audit Committee or the Investigators.
- c. Protected Disclosure will be appropriately dealt with by the Chairman of the Audit Committee, as the case may be.

4. Eligibility

All Employees and directors of the Company are eligible to make Protected Disclosures under the Policy. The Protected Disclosures may be in relation to matters concerning the Company or any other Company.

5. Disqualifications

- a. While it will be ensured that genuine Whistleblowers are accorded complete protection from any kind of unfair treatment as herein set out, any abuse of this protection will warrant disciplinary action.
- b. Protection under this Policy would not mean protection from disciplinary action arising out of false or bogus allegations made by a Whistleblower knowing it to be false or bogus or with a mala fide intention.
- c. Whistleblowers, which make three or more Protected Disclosures, which have been subsequently found to be mala fide, frivolous, baseless, malicious, or reported otherwise than in good faith, will be disqualified from reporting further Protected Disclosures under this Policy. In respect of such Whistleblowers, the Company/Audit Committee would reserve its right to take/recommend appropriate disciplinary action.

6. Procedure

- a. All Protected Disclosures concerning financial/accounting matters should be addressed to the Chairman of the Audit Committee of the Company for investigation.
- b. In respect of all other Protected Disclosures, those concerning the employees at all the junior/senior levels should be addressed to the Chairman of the Audit Committee of the Company.
- c. The contact details of the Chairman of the Audit Committee of the Company is as under:
Bhargav Pandya – Audit Committee of Directors
Phone: +91 97277 55083
E-MAIL: cs@wardwizard.in
- d. If a protected disclosure is received by any executive of the Company other than Chairman of Audit Committee, the same should be forwarded to the Company's Chairman of the Audit Committee for further appropriate action. Appropriate care must be taken to keep the identity of the Whistleblower confidential.
- e. Protected Disclosures should preferably be reported in writing so as to ensure a clear understanding of the issues raised and should either be typed or written in a legible handwriting in English, Hindi or in the regional language of the place of employment of the Whistleblower.
- f. The Protected Disclosure should be forwarded under a covering letter which shall bear the identity of the Whistleblower. The Chairman of the Audit Committee, as the case may be shall detach the covering letter and forward only the Protected Disclosure to the Investigators for investigation.
- g. Protected Disclosures should be factual and not speculative or in the nature of a conclusion, and should contain as much specific information as possible to allow for proper assessment of the nature and extent of the concern and the urgency of a preliminary investigative procedure.
- h. The Whistleblower must disclose his/her identity in the covering letter forwarding such Protected Disclosure. Anonymous disclosures will not be entertained as it would not be possible to interview the Whistleblowers.

7. Investigation

- a. All Protected Disclosures reported under this Policy will be thoroughly investigated by the Chairman of the Audit Committee of the Company who will investigate / oversee the investigations under the authorization of the Audit Committee. If any member of the Audit Committee has a conflict of interest in any given case, then he/she should recuse himself/herself and the other members of the Audit Committee should deal with the matter on hand. In case where a company is not required to constitute an Audit Committee, then the Board of directors shall nominate a director to play the role of Audit Committee for the purpose of vigil mechanism to whom other directors and employees may report their concerns.
- b. The Chairman of the Audit Committee may at its discretion, consider involving any Investigators for the purpose of investigation.
- c. The decision to conduct an investigation taken by the Chairman of the Audit Committee is by itself not an accusation and is to be treated as a neutral fact finding process. The outcome of the investigation may not support the conclusion of the Whistleblower that an improper or unethical act was committed.

- d. The identity of a Subject will be kept confidential to the extent possible given the legitimate needs of law and the investigation.
- e. Subjects will normally be informed of the allegations at the outset of a formal investigation and have opportunities for providing their inputs during the investigation.
- f. Subjects shall have a duty to co-operate with the Chairman of the Audit Committee or any of the Investigators during investigation to the extent that such co-operation will not compromise self-incrimination protections available under the applicable laws.
- g. Subjects have a right to consult with a person or persons of their choice, other than the Investigators and/or members of the Audit Committee and/or the Whistleblower. Subjects shall be free at any time to engage counsel at their own cost to represent them in the investigation proceedings.
- h. Subjects have a responsibility not to interfere with the investigation. Evidence shall not be withheld, destroyed or tampered with, and witnesses shall not be influenced, coached, threatened or intimidated by the Subjects.
- i. Unless there are compelling reasons not to do so, Subjects will be given the opportunity to respond to material findings contained in an investigation report. No allegation of wrongdoing against a Subject shall be considered as maintainable unless there is good evidence in support of the allegation.
- j. Subjects have a right to be informed of the outcome of the investigation. If allegations are not sustained, the Subject should be consulted as to whether public disclosure of the investigation results would be in the best interest of the Subject and the Company.
- k. The investigation shall be completed normally within 45 days of the receipt of the Protected Disclosure

8. Protection

- a. No unfair treatment will be meted out to a Whistleblower by virtue of his/her having reported a Protected Disclosure under this Policy. The Company, as a policy, condemns any kind of discrimination, harassment, victimization or any other unfair employment practice being adopted against Whistleblowers. Complete protection will, therefore, be given to Whistleblowers against any unfair practice like retaliation, threat or intimidation of termination/suspension of service, disciplinary action, transfer, demotion, refusal of promotion, or the like including any direct or indirect use of authority to obstruct the Whistleblower's right to continue to perform his/her duties/functions including making further Protected Disclosure. The Company will take steps to minimize difficulties, which the Whistleblower may experience as a result of making the Protected Disclosure. Thus, if the Whistleblower is required to give evidence in criminal or disciplinary proceedings, the Company will arrange for the Whistleblower to receive advice about the procedure, etc.
- b. A Whistleblower may report any violation of the above clause to the Chairman of the Audit Committee, who shall investigate into the same and recommend suitable action to the management.
- c. The identity of the Whistleblower shall be kept confidential to the extent possible and permitted under law. Whistleblowers are cautioned that their identity may become known for reasons outside the control of the Chairman of the Audit Committee (e.g. during investigations carried out by Investigators).

- d. Any other Employee or Director assisting in the said investigation shall also be protected to the same extent as the Whistleblower.

9. Investigators

- a. Investigators are required to conduct a process towards fact-finding and analysis. Investigators shall derive their authority and access rights from the Audit Committee when acting within the course and scope of their investigation.
- b. Technical and other resources may be drawn upon as necessary to augment the investigation. All Investigators shall be independent and unbiased both in fact and as perceived. Investigators have a duty of fairness, objectivity, thoroughness, ethical behaviour, and observance of legal and professional standards.
- c. Investigations will be launched only after a preliminary review which establishes that:
- the alleged act constitutes an improper or unethical activity or conduct, and
 - either the allegation is supported by information specific enough to be investigated, or matters that do not meet this standard may be worthy of management review, but investigation itself should not be undertaken as an investigation of an improper or unethical activity.

10. Decision

If an investigation leads the Chairman of the Audit Committee to conclude that an improper or unethical act has been committed, the Chairman of the Audit Committee shall recommend to the management of the Company to take such disciplinary or corrective action as the Chairman of the Audit Committee deems fit. It is clarified that any disciplinary or corrective action initiated against the Subject as a result of the findings of an investigation pursuant to this Policy shall adhere to the applicable personnel or staff conduct and disciplinary procedures.

11. Reporting

The Chairman of the Audit Committee shall submit a report to the Audit Committee on a regular basis about all Protected Disclosures referred to him/her since the last report together with the results of investigations, if any.

12. Retention of documents

All Protected Disclosures in writing or documented along with the results of investigation relating thereto shall be retained by the Company for a minimum period of seven years.

13. Amendment

The Company reserves its right to amend or modify this Policy in whole or in part, at any time without assigning any reason whatsoever. However, no such amendment or modification will be binding on the Employees and directors unless the same is notified to the Employees and directors in writing.

Dividend Distribution Policy

- a. The Dividend Distribution Policy ("the policy") establishes the principles to ascertain amounts that can be distributed to equity shareholders as dividend by the Company as well as to enable the Company strike a balance between pay-out and retained earnings, in order to address future needs of the Company. The policy shall come into force for accounting periods beginning from 01st April, 2017.
- b. Dividend would continue to be declared on per share basis on the Ordinary Equity Shares of the Company having face value of Re. 1 each at present. The Company currently has not issued any other class of shares. Therefore, dividend declared will be distributed amongst all shareholders, based on their shareholding on the record date.
- c. Dividends will generally be recommended by the Board once a year, after the announcement of the full year results and before the Annual General Meeting (AGM) of the shareholders, out of the profits of the Company for current year or out of profits of the Company for any previous financial years or out of both, as may be permitted under the Companies Act, 2013 ("the Act").
- d. In the event of inadequacy or absence of profits in any year, the Board may recommend to declare dividend out of the accumulated profits earned by the Company in any previous financial years and transferred to free reserves, provided such declaration of dividend shall be in accordance with the provisions of the Act and Rules framed thereunder.
- e. The Board may also declare interim dividend as may be permitted by the Act.
- f. The Company has a consistent dividend policy that balances the objectives of appropriately rewarding shareholders through dividends and to support the future growth.
- g. As per the provisions of the applicable law, the Company's dividend payout will be determined based on available financial resources, investment requirements and taking into account optimal shareholder return. Within these parameters, the Company would endeavor to maintain a total dividend pay-out (including dividend distribution tax) ratio in the range of 10% to 60% of the annual standalone Profits after Tax (PAT) of the Company.
- h. While determining the nature and quantum of the dividend payout, including amending the suggested payout range as above, the Board would take into account the following factors:

Internal Factors

- Profitable growth of the Company and specifically, profits earned during the financial year as compared with:

Previous years and Internal budgets

- Cash flow position of the Company
- Accumulated reserves
- Earnings stability
- Future cash requirements for organic growth/ expansion and/or for inorganic growth
- Brand acquisitions
- Current and future leverage and, under exceptional circumstances, the amount of contingent liabilities
- Deployment of funds in short term marketable investments,
- Long term investments
- Capital expenditure(s), and
- The ratio of debt to equity (at net debt and gross debt level).

External Factors:

- Business cycles,
 - Economic environment,
 - Cost of external financing,
 - Applicable taxes including tax on dividend,
 - Industry outlook for the future years,
 - Inflation rate, and
 - Changes in the Government policies, industry specific rulings & regulatory provisions.
- Apart from the above, the Board also sense of shareholders' expectations while determining the rate of dividend. The Board may additionally recommend special dividend in special circumstances.
 - The Board may consider not declaring dividend or may recommend a lower payout for a given financial year, after analyzing the prospective opportunities and threats or in the event of challenging circumstances such as regulatory and financial environment. In such an event, the Board will provide rationale in the Annual Report

Internal Factors

The retained earnings of the Company may be used in any of the following ways:

- Capital expenditure for working capital.
 - Organic and/or inorganic growth
 - Investment in new business(es) and/or additional investment in existing business(es),
 - Declaration of dividend
 - Capitalization of shares,
 - Buy back of shares,
 - General corporate purposes, including contingencies,
 - Correcting the capital structure
- Any other permitted usage as per the Companies Act, 2013.
 - This policy may be reviewed periodically by the Board. Any changes or revisions to the policy will be communicated to shareholders in a timely manner.
 - The policy will be available on the Company's website www.manvijay.com.

Wardwizard Innovations and Mobility Ltd is committed to the highest standards of corporate conduct towards its various stakeholders and the environment in which it operates. Towards this, the Company recognizes its responsibility to ensure safety and protection of health of its employees, contractors, visitors and neighbourhood in all its operating sites, which include manufacturing, sales and distribution, research laboratories and offices.

Our Health, Safety & Environment Policy is based on and supported by the following eight principles:

1. All injuries, occupational illnesses & environmental incidents are preventable
2. All operational exposures can be safeguarded.
3. Safety & environmental assessment of all business processes is vital
4. Working safely is a condition of employment
5. Training all employees to work safely & environment friendly is essential
6. HSE Management audits are a must
7. Employee involvement is essential in all HSE issues
8. All deficiencies must be reported and corrected promptly

POLICY STATEMENT

Our health, safety and environment policy is to:

Manage and maintain health, safety and ergonomics at the workplace.

Prevent incidents and occupational health hazards.

Provide PPE to all as per designated area of activity.

To ensure upkeep and proper housekeeping of the entire plant premises.

Follow a documented emergency evacuation procedure and communication protocol.

Have regular interaction with employees regarding matters affecting their health and safety.

To ensure adequate ventilation and illumination for a safe and ergonomic workplace.

To reuse and recycle packaging material.

Efficient use of water and energy.

To review and revise policy regularly.

Quality

Goals of the Quality

Enhance Product Quality, Reduce customer complaints.

Understanding customer needs and requirements to develop effective quality control processes.

To Reduce Non Conformities using different root cause analysis tools, Enhance Quality Control, Provide Quality Assurance, Reduce Turnaround Time.

Improve Incoming material quality inspection methods.

To measure and assure the quality products(all the planned and systematic activities implemented within the quality system that can be demonstrated to provide confidence that a product or service will fulfil requirements for quality)

To define the criteria and processes that will ensure and verify that data meet specific quality objectives.

To implement vehicle rework reduction plans by using different lean manufacturing methodologies like 5S, Kaizen, Poka-Yoke etc.

Adherence to Supplier/Vendor System performance monitoring.

Adherence to PPAP Audit of domestic suppliers/vendors.

Adherence to training man hours.

To improve the Direct Pass Ratio, reduce Defects per vehicle, reduce Operator oriented defects.

Incoming Quality Processes

Validates the quality of purchased raw materials based on set of acceptance criteria (Accepted, Conditionally Accepted & Rejected)

Specify the purchase order number, material description, quantity etc.

100% inspection of painted parts, fiber parts & electrical lightings.

Assign actions for accepted, conditionally accepted, or rejected materials.

Sampling Inspection of Parts visually as well as dimensionally using different quality precision tools.

Perform different quality tests like Sheer breaking, Paint adhesion, water pressure etc. for the improved quality of parts before assembling.

Complete the incoming inspection process using Incoming Inspection Check Sheet with a range of checking parameters.

Monitoring of supplier's performance, problem solving via Root cause analysis etc.

Record of all non-conformities, rejections & improvements.

On-line Quality Processes:

On-line quality inspection of every vehicle at the production line before forwarding them to the final inspection stage.

Inspect the entire assembly process as per the standard SOP

Inspect a range of critical checkpoints of the vehicle while assembly using an inspection check sheet.

Measure instruments/torque calibration.

Record of all Non-conformities, rejections & improvements.

Research and Development

GOALS OF R&D

Product quality improvement by design changes in existing products.

Working towards standardization of components like Motors, Controllers, Wiring Harnesses, Display Meters, Batteries, etc across the product range
Working towards continuous product improvements based on Customer Feedbacks and complaints.

Development of Testing Facilities for various electrical, electronic and mechanical components.

Working towards creating USPs for our products based on customer requirements, market needs and innovative ideas.

Enhance product safety through design changes.

Validation testing of incoming components for newly developed products / components.

Continuous testing and data collection of on-road performance of products.

Development of locally manufactured quality components as import substitutes.

Develop concept vehicles with innovative designs for showcasing and studying market response

Social Activities

The Wardwizard's core business of e-Mobility is at the core of its environmental & sustainable development philosophy. As important as social activities are for the community, it is equally valuable for a company. Social activities can help forge a stronger bond between employees and corporations, boost morale and help both employees and employers feel more connected with the world around them.

- KEY TAKEAWAYS**
- It is important to both consumers and companies
 - They are a great way to raise morale in the workplace.

Awareness campaigns with Gujarat Police towards adoption to electric vehicles – also contributed high speed bikes to Police Department

Adoption of electric vehicles (EVs) in India is slowly starting to pick up, and today, the government of Gujarat has taken another step to accelerate EV uptake in the state. As a matter of fact, at Joy eBike we make a generous donation of equipping the Vadodara Police with Joy eBike - Highspeed Bikes for patrolling and commuting purposes.

AN ERA OF ENVIRONMENT FRIENDLY TRANSPORTATION WILL COME TO VADODARA POLICE.

The electrification will help:

Cheaper to maintain | Reduced Carbon Emissions | Better for health |
Fast, easy home charging | Quite and enjoyable driving experience

Women's Day Celebration 2021 in association with Radio Mirchi 98.3

Every year, March 8 is celebrated as International Women's Day. This year, the goal is to create a gender-equal world. It is about celebrating a woman's success and raising awareness against bias. So we all should choose to 'challenge' to bring the change. The hashtags for this year are #ChooseToChallenge and #IWD2021. This year, we had Queens Wizards By Wardwizard - a roundtable discussion in association with Radio Mirchi 98.3 FM. Here the industry top women discussed the current and future times of the business world.

THE ATTENDEES FOR THE ROUNDTABLE WERE:

- Sheetal Bhalerao - Chief Operating Officer, Wardwizard Innovations and Mobility Limited & CEO, Yeppy Foods
- Sneha Shouche - Chief Financial Officer, Wardwizard Innovations and Mobility Limited
- Rajeshwari Singh - Founder/Director of Caravan Classrooms and Real Heroes Empowerment Action Pvt Ltd.
- Priyanka Chauhan - Founder of Krantikari
- Indrani Nag - A homemaker, poetess, youtuber, composer and writer
- Dr. Kalpa Rachh - Founder of The Educlub & Simple Deeds Foundation
- Dr. Zenia - Indian Railways Traffic Service Officer of civil services

Experts in Aerial Silk Game and Rope Mulkham

We at Ward Wizard Innovations & Mobility Limited believe that talent, if nurtured at a right age, can carve the future of generations. In light of such an effort, Ward-wizard Innovations and Mobility Ltd. took an opportunity to recognize and appreciate the young talents managed by the South Asian Federation for all sports held at Kathmandu, Nepal.

Experts in Aerial Silk Game and Rope Mulkham, these younger stars showed an incredible performance with great Physical - Mental strength and flexibility and discipline from such a young age.

We would like to thank the Government of India for taking huge steps to take these sports ahead on an international level and encourage youngsters to be the catalyst of the New Face of India with these strong teams making a huge impact in the sports world.

Environment Day 2021

Wardwizard Innovations and Mobility Limited had a small initiative on the account of World Environment Day with various activities such as cleanliness drives and plantation drives at the head office.

To align with the company's long-term objective of environmental restoration, Wardwizard is also running a plantation drive along with digital awareness campaigns. Under this initiative, the company pledges to plant 1 lac trees in India within a year.

The staff members also initiated a campaign where each would come up with their own ideas to aid the environment by making subtle modifications in daily office practices. The activity had happy faces and made a small but effective impact on the office environment and boosted the morale of the employees to join to conserve the environment.

Brand Initiatives

You have the vision in your mind: what your brand stands for, its personality, what it promises to customers. Well-defined standards for brand identity are extremely important to ensuring consistency across content. Brand initiatives will match your vision if all creative contributors follow your established verbal and visual guidelines.

Over the past financial year we had a few great initiatives that brought light and shine on the brand in a completely different manner.

1. Brand Association with Chennai Super Kings:

2. Association with Rannvijay Singha as Brand Ambassador

3. ABP Masterstroke

1. Brand Association with Chennai Super Kings:

Joy e-bike, a frontrunner in the Electric bike space, entered into a partnership with IPL franchise team Chennai Super Kings (CSK) for the IPL season 2021. Joy e-bike was the official retail Electric Vehicle partner for the team. To spear the electric vehicle market and spread the IPL fever, Joy e-bike launched new digital campaign titled #WhistlePoduWithJoye in line with the brand ethos.

The new campaign is aimed at communicating that Joy e-bike is transforming the EV scenario in India and the way an everyday Indian commute. This has been possible through their contribution to the clean energy sector and social activities over time with the support of the huge customer base that has expanded manifold through the years. The campaign kickstarted with the IPL season on the major social media and OTT platforms.

Both brands had tremendous brand synergy with Joy e-bike as they represent similar passion, winning attitude and popularity amongst the millennials. This partnership will bring forth unique and appealing digital content through their campaign #WhistlePoduWithJoye across social media and OTT platforms during the 14th edition of the upcoming Indian Premier League (IPL) aimed at engaging with a collective audience."

2. Association with Rannvijay Singha as Brand Ambassador

Wardwizard Innovations & Mobility Ltd, India's 1st listed Electric Vehicle manufacturer appointed actor Rannvijay Singha of MTV Roadies fame as the brand ambassador for Joy e-Bike a few months ago. Based out of Gujarat, the electric manufacturer has more than 10 variants of electric bikes in their inventory. With the association of Rannvijay Singha, Wardwizard expects to educate and create more traction for their products in the youth segment.

Rannvijay Singha arrived in Gujarat for the product shoot of Joy e-Bike's upcoming high-performance bikes. Speaking on this occasion, Mr. Yatin Gupte, Chairman and Managing Director, Wardwizard Innovations & Mobility Ltd said, "We believe Rannvijay Singha is the perfect icon our range of products were missing. We as a family are very excited to show our products to the consumers and even excited to have Rannvijay doing it"

Being present in 25+major cities and expanding day-by-day, Wardwizard Group is the only electric vehicle manufacturing company in India with 10+ Electric vehicle models. "I am very thrilled to be part of Wardwizard Group, the company which is bringing a revolution in the Electric Vehicle Industry. I was always a green enthusiast and am very happy to get associated with Joy e-Bikes. The bikes are sporty and amazing and are exactly what India was missing out": says a very excited Rannvijay Singha.

3. ABP Masterstroke

Wardwizard Innovation & Mobility Ltd, India's 1st listed entity for electric vehicle manufacturing associated with the prime time new show called ABP Masterstroke which will make a brand identity that will in turn create a brand recall value.

Management Discussion & Analysis

Your directors are pleased to present the Management Discussion and Analysis Report for the year Ended **31st March, 2021**.

Investors are cautioned that these discussions contain certain forward-looking statements that, involve risk and uncertainties including those risks which are inherent in the Company's growth and strategy. The company undertakes no obligation to publicly update or revise any of the opinion or forward-looking statements expressed in this report consequent to new information or developments, events or otherwise

1. Industry Developments

1.1. Global Electric Vehicle Scenario

Strong momentum in electric vehicle markets despite the pandemic:

EV sales are surging due to a combination of policy support, improvements in battery technology and cost, more charging infrastructure being built, and new compelling models from auto-makers. Electrification is also spreading to new segments of road transport, setting the stage for huge changes ahead.

There were 10 million electric cars at the end of 2020, following a decade of rapid growth. Electric car registrations increased by 41% in 2020, despite the pandemic-related worldwide downturn in car sales in which global car sales dropped 16%. Around 3 million electric cars were sold globally (a 4.6% sales share), and Europe overtook the People's Republic of China ("China") as the world's largest electric vehicle (EV) market for the first time. Electric bus and truck registrations also expanded in major markets, reaching global stocks of 600,000 and 31,000 respectively.

Road transport is one of the largest contributors to global CO2 emissions. Despite the expected rapid rise in EV sales, most countries are still not on track to bring road transport emissions to zero by mid-century. EV adoption is primarily driven by techno-economic trends and market forces, with no new policy measures introduced to support their growth. This scenario also sees an EV-dominated fleet by 2050.

In the first quarter of 2021, global EV sales rose by around 140% compared to the same period in 2020. This was driven by sales in China of around 500,000 vehicles and in Europe of around 450,000, while US sales more than doubled relative to the first quarter of 2020.

The number of EV models also is increasing. In 2020, 370 electric models were available and of the world's top 20 vehicle manufacturers representing around 90% of new registrations in 2020, 18 have stated plans to widen their model portfolio and to rapidly scale up the production of light-duty electric vehicles. The model availability of electric heavy-duty vehicles is also broadening, with four major truck manufacturers indicating an all-electric future.

18 OF THE 20 LARGEST OEMS HAVE COMMITTED TO INCREASE THE OFFER AND SALES OF EVS

Several manufacturers have raised the bar to go beyond previous announcements related to EVs with an outlook beyond 2025. More than ten of the largest OEMs worldwide have declared electrification targets for 2030 and beyond.

Looking further ahead, the IEA anticipates “healthy growth” during this decade. Based on current trends and policies, the number of EVs, vans, heavy trucks and buses is projected to reach 145 million by 2030.

Are we entering the era of the electric vehicle?

Even with the recent success of EV deployment, reaching a trajectory consistent with climate goals is a formidable challenge. It requires stronger ambition and action from all countries. Advances in battery technology and mass manufacturing will continue to drive down the cost of EVs.

Main policy drivers of EV adoption to date.

Significant fiscal incentives spurred the initial uptake of electric light duty vehicles (LDVs) and underpinned the scale up in EV manufacturing and battery industries. The measures – primarily purchase subsidies, and/or vehicle purchase and registration tax rebates. Gradual tightening of fuel economy and tailpipe CO2 standards has augmented the role of EVs to meet the standards.

To date, more than 20 countries have announced the full phase-out of internal combustion engine (ICE) car sales over the next 10-30 years.

For electric vehicles to attain their full potential to mitigate carbon emissions, critical progress is required to decarbonize electricity generation, to integrate electric vehicles in power systems, to build charging infrastructure and to advance sustainable battery manufacturing and their recycling.

1.2. India Electric Vehicle Scenario

The Indian automotive industry is the fifth largest in the world and is slated to be the third largest by 2030. Catering to a vast domestic market, reliance on the conventional modes of fuel intensive mobility will not be sustainable. To address this, federal policymakers are developing a mobility option that is “Shared, Connected, and Electric” and have projected an ambitious target of achieving 100 percent electrification by 2030. Vehicle manufacturers and policy makers are boosting their attention and actions related to electric vehicles (EVs).

EV technologies such as full battery electric and plug-in hybrid electric models are attractive options to help reach environmental, societal and health objectives. In addition to being two-to four-times more efficient than conventional internal combustion engine models, EVs can reduce reliance on oil-based fuels and, if running on low-carbon power, can deliver significant reductions in greenhouse gas emissions. Plus, with zero tailpipe emissions, EVs are well suited to help solve air pollution issues. Moreover, EVs are driving advances in battery technology – a key issue for industrial competitiveness in the transition to clean energy. EV fleets are expanding at a fast pace in several of the world's largest vehicle markets.

The costs of batteries and EVs are dropping. Charging infrastructure is expanding. This progress promotes electrification of transport modes such as two/three-wheelers, light duty vehicles (LDVs) (cars and vans), taxis and shared vehicles, buses, and heavy-duty vehicles with short range requirements such as urban deliveries. Manufacturers are continuing to expand the number of EV models available to customers.

By making the shift towards electric vehicles (EVs), India stands to benefit on many fronts: it has a relative abundance of renewable energy resources and availability of skilled manpower in the technology and manufacturing sectors. Effective policies still needed to address upfront investment costs, promote EV charging infrastructure, and ensure a smooth integration of charging demand in power systems. With foundations being laid, the EV market in India will be a US\$206 billion opportunity by 2030 if India maintains steady progress to meet its ambitious 2030 target. This would require a cumulative investment of over US\$180 billion in vehicle production and charging infrastructure.

India's EV space is at a nascent stage. However, looking at it differently – India offers the world's largest untapped market, especially in the two-wheeler segment. 100 percent foreign direct investment is allowed in this sector under the automatic route.

The government has also rolled out a Production-Linked Incentive Scheme (PLI) for ACC Battery Storage Manufacturing, which will incentivize the domestic production of such batteries and reduce the dependence on imports. This will support the EV industry with the requisite infrastructure and will significantly cause a reduction in cost of EVs.

The EV industry is on an upward tick, it has much ground to cover to be able to realize the government's ambitious 2030 target. The COVID-19 pandemic not only slowed the industry's progress, but also dampened overall market demand.

Cumulative EV sales numbers for FY2021 are 2,38,120 units, down 19.41 percent year on year (FY2020: 2,95,497). Electric two- and three-wheelers, termed the 'low-hanging fruit' came under pressure with sales of 1,43,837 units (-5.37 percent) and 88,378 units (-37.18 percent). The bulk of the e-two-wheeler demand came from low-speed models (1,03,000 units) while 40,836 high-speed models found buyers in the last fiscal.

While the decline in electric three-wheeler numbers looks rather high at nearly 40 percent YoY, the fact is that the SMEV data does not include vehicles that are not registered with the transport authority.

Electric Vehicle Sales in India FY2021

Category	FY21 (Units)	FY20 (Units)	Growth (%)
Two Wheelers	1,43,837	1,52,000	(5.37)
Three Wheelers	88,378	1,40,683	(37.18)
Cars	5,905	2,814	109.84
Total	2.38,120	2,95,497	(19.42)

Sales in the electric three- and two-wheeler segments stood low as compared to FY2020. A good thing is that people have started moving towards advanced batteries i.e., lithium. The city speed and high-speed categories in the two-wheeler segment have witnessed growth.

The light mobility segments of 2/3-wheelers and commercial cars will be leading electric vehicle penetration in India by 2030. The three-wheeler adoption is expected to be around 65%-70%. Electric two-wheelers, with a plethora of startups offering different ranges of products at an attractive price and ownership models, are expected to have only 25%-35% penetration. Their price and fuel economy make them commercially more viable.

Policy Support for EV Segment:

Several fiscal and non-fiscal measures have been put in place to facilitate the adoption of electric mobility. They are as follows:

Segment wise analysis - EV Penetration			
Segment	Sub segment	EV Penetration %	
		2025	2030
2W	Scooters	15 - 25%	50 - 70%
	- B2B	40 - 60%	60 - 80%
	- B2C	13 - 18%	40 - 60%
	Motorcycles	1 - 2%	10 - 20%
	Overall	7 - 10%	25 - 35%
3W	Overall	35 - 45%	65 - 75%
4W - PV	Personal	1-3%	10-15%
	Commercial	5-10%	20-30%
Buses	STUs	15%-25%	25%-40%

1. National Electric Mobility Mission Plan 2020 (NEMMP):

The subsidy per electric two-wheeler (Indian-made), which is linked to the battery size, has been increased to INR 15,000 (US\$204.60) per Kilowatt-hour (KWh) from INR 10,000 (US\$136.40) KWh. Furthermore, electric two-wheeler manufacturers can now give discounts of up to 40 percent to consumers, which is a significant raise from the previous cap of 20 percent. Both these moves are expected to significantly lower the purchase price and lift buyer sentiment, creating a spur in market demand.

2. Power Support:

EVs Charging is considered a service, which means that operating EV charging stations will not require a license. It has also issued a policy on charging infrastructure to enable faster adoption of EVs.

3. Permit Requirement:

Both commercial as well as private battery-operated vehicles will be issued green license plates, all battery operated, ethanol-powered, and methanol-powered transport vehicles will be exempted from the commercial permit requirement.

4. Phased Manufacturing Program:

Phased Manufacturing Program (PMP) for five years, to support setting up large-scale, export-competitive integrated batteries and cell-manufacturing giga plants in India, as well as localizing production across the entire electric vehicle value chain.

5. Charging Stations:

The government has issued guidelines and standards for public charging infrastructure wherein it has phased out plans for the roll-out of public charging infrastructure. Based on the proposals received, the union government has sanctioned 2,636 (public) charging stations in 62 cities across 24 states/UTs to be installed by 19 public entities. Out of these, 1,633 are expected to be fast charging and 1,003 slow charging stations. With this, ~20,000 charging points are expected to be installed across selected cities.

Challenges faced by EV Segment:

1. Insufficient charging infrastructure:

Lack of sufficient charging infrastructure is one of the primary reasons why customers often refrain from purchasing EVs. India needs about 400,000 charging stations to meet the requirement for two million Electric Vehicles (EV) that could potentially ply on its roads.

2. Limited Options:

Since it is still a budding industry in India, customers have a very limited range of products to choose from. Increased investment in the sector will make it more competitive in due time and this will help create further demand.

3. EV Cost vs. ICE:

Along with limited number of variants available to choose from, the customer also has to pay a higher price in comparison to the ICE's. This is mainly due to the battery cost accounting which accounts for 50% of the total vehicle price, which is then passed on to the end consumer

4. Lower mileage:

As of today, EVs in India are not cost competitive to an average customer as internal combustion engine (ICE) vehicles prove to be more cost effective.

5. Higher dependency on imports:

Reliance on imports of battery as well as other components is also one of the factors adding to the cost of EVs in India.

6. Raw Material:

The absence of adequate reserves of key raw materials like lithium and cobalt. India must depend on other countries for its supply.

2. WardWizard Innovations & Mobility Business portfolio, Opportunities & Outlook

Your company prides itself in being an innovation company with business segment of manufacturing electric vehicle and Smart technology based electronic appliances. We entered electric vehicle segment under brand name "Joy E-Bikes". And our products of electronic appliances are under the brand name "Vyom". We are the only listed company on the Bombay stock exchange manufacturing electric vehicles (EV's). We are focused to tap and capitalize on the growing potential in India's EV segment by providing clean and greener alternatives to the existing available mode of mobility.

1. Joy E-Bike

Joy E- Bikes is one of the leading brands in electric vehicle segment of 2 wheelers. Your company has more than 10 different models varying from low-speed scooters to high-speed bikes, we have serviced more than 3000+ happy customers in a very short span.

With innovation being an integral part, our idea is to bring something new to the market, which can also help fight climate change. Your company main aim is to create a positive impact across the globe. In current scenario, where most of the carbon emission is caused by fuel-run vehicles, zero-emission vehicles are a boon. Also, our Joy E- Bikes vehicles are perfect for everyday use as cost wise they are economical and require very little maintenance.

2. Vyom

At Vyom, we are always working hard towards bringing something innovative and one-of-a-kind to our consumers. Apart from that, we are one of the few eco-friendly tech brands in our country. Right from LED TVs to Alkaline water purifiers and air purifiers to hydrogen water bottles, we have it all. We are the only manufacturers of 4-door refrigerators with an all-glass display and quick-freezing technology in India. Our latest addition, the RAGA line, consists of the audio devices from wireless ear-pods to speakers designed to give you the ultimate audio experience.

Expanded Product Portfolio and Capabilities under the Vyom Brand

Seizing the Opportunities:

As per Society of Indian Automobile Manufacturers (SIAM) In FY21 the total 2-wheeler domestic (ICE) sales came in at 15.1 mn units which was lower by ~13% YoY on the back of the virulent Covid-19 pandemic. During the same fiscal the total domestic 2-wheeler EV sales was at 0.14 mn units accounting for less than a percent share of the total 2-wheeler sales. As we all know change is inevitable and this has been witnessed in the automobile industry with the reception of electric vehicles.

A paradigm shift has taken place in the automotive industry with focus towards low carbon footprints (Co2), better and cleaner fuels, efficient engines etc making auto OEM's are gear up by reimagining their business model making it agile thus adjusting to this evolving landscape in the industry.

This has opened the door of opportunities for your company to seize with its interest aligned with the government's vision to completely transition its mobility usage from the current ICE to EV by 2030E.

Your company understands that as customer preferences evolve and is ever changing it is well positioned and prepared to cater to the EV-2W segment as it has an existing variant of models launched and are being well accepted in the market.

In response to the opportunities that are starkly prevalent in the domestic and international EV-2W segment space your company has strengthened its capabilities to augment growth with expandable capacity of plant set up based in Vadodara – Gujarat.

A few notable highlights about this plant was 1. Inauguration by the Home Minister Shri Amit Shah 2. Expansion of the product portfolio with the Launch of new High-Speed variants of EV-2W motorcycles namely Skyline, Beast, Hurricane and Thunderbolt and 3. The state of the art plant has a manufacturing capability of 1 lakh units in a single shift and with ease can be extended to run for 2-3 shifts thus ensuring that a demand its met catering to a wider mass of customers with a minimal amount of capex requirement in the near future.

• Global Footprint:

Besides addressing demand in the domestic boundaries, your company aspires to expand its operations and tap opportunities that are prevalent in Middle East and sub-Saharan markets with a mix of existing and new EV offerings.

This will not only help to create a strong brand equity but will also enable the business operations to be replicated there by extending our success to other foreign regions. Our focus towards the company stays firm on growth with profitability with a slew of new product launches in this next financial year making our product available in every state of India aided with our loyal dealer-distributor model. Revenue contribution is aimed at 10-15% while the operating margins will be double digit based on the acceptance and response towards our EV-2W offerings

• Dealership expansion:

Your Company places higher emphasis on customer satisfaction and feedback and knows the importance of monitoring these key variables which play a vital role in the success of a product.

To reinforce this thought your company intends to expand its dealership footprints across all parts of India. Presently we have over 2000+ dealers-distributors and the idea is to enhance and optimize these channels by working closely with them which in turn help us to serve our customer better with the best in class products.

Operational Outlook of WardWizard – 2025

The Indian 2-wheeler market has ebbed and flowed on the back of the pandemic since March 2020 beginning with nationwide lockdown to the unlocking across several states, however precautionary measures are now being implemented to resume operation at an optimal level within industries and revive economic growth respectively.

The 2-Wheeler segment was expected to witness a contraction in sales volume followed by a decline in growth in FY21. The data released by SIAM was in line as per expectation. However during FY20 it was witnessed how the festive season brought cheer despite the fear of pandemic and which is why the outlook for the industry especially in the near term looks buoyed.

We at WardWizard have envisioned a longer term horizon which is always embedded in our thought process. Although our strategies and execution need to be flexible in response to the existing demand environment.

As far as the domestic E-2W segment is concerned, we opine that the gradual adoption towards motorcycles and bikes is gaining traction and the trend which is shaping up looks exciting. Your company aims to capture a piece of this pie with an increase in its market share in the E-2W segment. What makes us confident about reaching this milestone is 1.manufacturing prowess, 2.new launches of high speed motorcycles and bikes, 3.making in-roads in varied states with its dealer-distributor model and 4.serviceability of its products sold.

We aim to have the launch of fresh E-2W high speed bikes and motorcycles by mid-September 2020 that are competitively priced and cater to the growing needs of our customers. Our expectation are, to see a momentum shift in the demand for our new product portfolio thus aiding turnover and improving the blended margin profile gradually. The reading of the situation on ground also makes us believe that our existing capacity would see a pickup in its utilization levels as we expand our offerings and increase the state penetration footprints. The uptick in utilization levels will gradually see the full beneficial effect in the subsequent years to come. Your management has been prudent to ensure that the existing plant capacity serviced through its internal reserves without burdening the balance sheet thus intending to enhance its return ratios

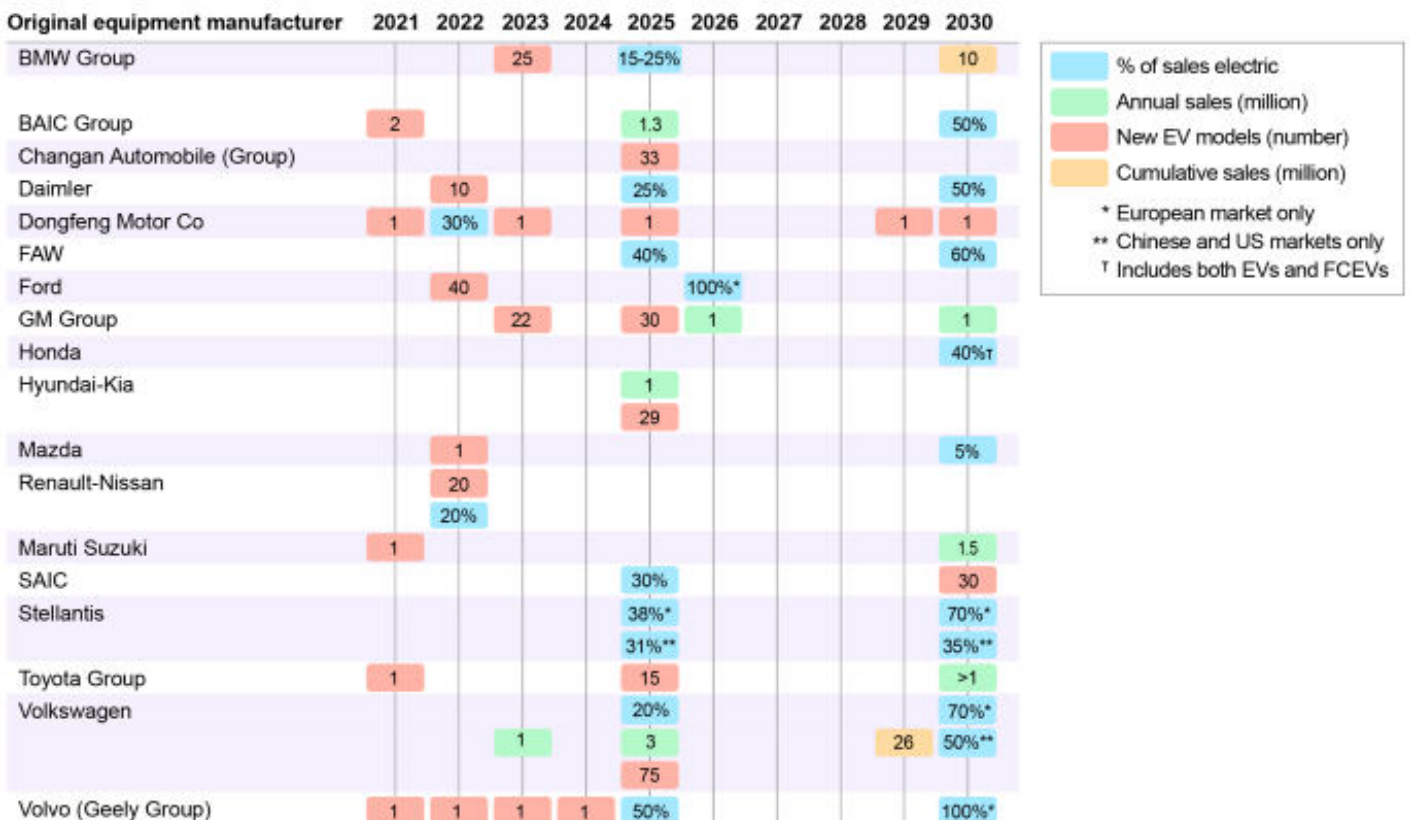

To ensure that our plans proceed in sync with our expectations, we need to have the right set of resources to optimize and steered in the right direction. Substantiating this our dealer-distributor model will play a key role in aiding the company expand its network to various other states which presents a solid opportunity to tap thus enabling to meet and even surpass our set expectations. We feel confident about our distribution channel due to the loyalty exhibited due to the attractive and unmatched incentives structures that are offered, training and product technicalities, timely bit of hand holding during the initial beginning phases etc.

In the scheme of things we also have to stay cognizant of the realities that as the pandemic waves may have variations the likely negative effects would be seen in E-2W sales especially in voluminous states where your company is present. This could result in deferred demand for E-2W in the near term which could offset the impact of the pandemic. We would like to draw your attention to the fact also that of the total cost of the vehicle, the main component which is the battery, constitutes nearly 40-50% of the cost. This is the key variable which is responsible for the price differentials between EV's and ICE's.

OEM's are looking to optimize the battery which will lower the overall price via collaboration with technology partners, battery swapping option, low cost alternative to Li-ion like Li-ion phosphate or solid-state electrolyte (SSE) and better battery design with cell and pack optimization per kWh.

As per a latest finding in 2020 by Bloomberg NEF (BNEF) auto OEM's can manufacture battery packs in the same price as for ICE's due to use of low-cost chemical components in the battery and a drop in the manufacturing cost as utilization levels expand.

This would all result in the fall of batteries prices and faster transition to the battery electric vehicle. Your company also aims to adopt this in the production of its E-2W which will drive production volumes on a large scale and profitability

3. EFFECTS OF COVID -19 ON THE BUSINESS OF THE COMPANY

As we are aware, year 2020 and 2021 have witnessed major effects of COVID 19's spread on society and the global economy. Many countries witnessed major problems resulting in partial (in some cases complete) lock-downs, thereby hampering production, supply and employment. However, our team has taken key steps in mitigating most of these challenges. Teams across functions and countries confronted challenges posed by the pandemic with such resilience, agility and responsiveness that would make you proud. Be it partial or complete lockdown, the teamwork was precise. Complying with local laws and protocols, production planning and execution ensured meeting customers' requirements, be it small or big. Supply Chain Team ensured adequate availability of Resources to facilitate production, filling, packing and logistics. Be it Human Resources Management or Customer Relationship Management or Creditors' Management or Stakeholders Management, new lessons were learnt, and appropriate strategies were adopted. While the pandemic induced business downturns and economic slowdown reduced the demand and increased the vulnerability of supply chain as well as Forex fluctuations, our Teams ensured a decent performance amidst such chaos with complete support and understanding with all customers and stakeholders. The goodwill created in such testing times will ensure and facilitate higher growth in the coming years. During this unprecedented year, we continued to prioritize the health and wellbeing of our employees through multiple safety measures. We have ensured continuation of services of all employees, allowed them to work from home whenever required, kept their personal revenue stream flowing without any interruption and ensured that their morale was kept high. The relationship with our Supply Chain Partners saw a new high, which would enable us to pursue the growth path that we envision in coming years. The challenge proved to be a blessing, in disguise, to have found new partners too in this sphere, which is an asset. These new partnerships also enabled us to make our supply chain flexible, countering challenges faced by lack of supplies. Finally, during the year under review, there was no material change in the nature of business of the Company. Further, there were no significant and material order passed by the regulators, courts or tribunals impacting the going concern status and Company's operations in future. Our stronger than ever financial position and balance sheet secured stakeholder's interest to invest for sustainable growth and long term value creation of business.

4. RESULTS OF OPERATIONS AND THE STATE OF COMPANY'S AFFAIRS

Virtual inauguration ceremony of the new plant was conducted by Shri Amit Shah, Hon'ble Minister for Home Affairs, Government of India on January 28, 2021. The inaugural function was also attended by Ranjanben Bhatt, Member of Parliament, Vadodara and Mr. Rajendra Trivedi, Speaker, Gujarat State Legislative Speaking Assembly.

The New plant has the capacity to manufacture over one lakh electric two wheelers in a single shift; Plant is equipped to produce 3-4 lakh units per year in full capacity. We have Launched 4 new models of super bikes – Beast, Thunderbolt, Hurricane and Skyline.

Electric two-wheeler segment can grow to Rs. 12,000 crore market by 2024-25; with right macroeconomic environment the penetration can increase to 16%. In next 3-4 years, Company has set a revenue target of Rs. 500 - 600 crore.

Starting from exquisite city of Vadodara, we are now opening a new experience center in the nucleus of India - Delhi. We have not only achieved a tremendous reach towards various geographical regions of India but also have reached our objective of creating exponential employment opportunities.

We believe in constant innovation and therefore we are launching two new robust models. We are also determined towards our "Make in India" objective and therefore these new models of Joy e-bike will consist of parts that are entirely made in India.

Furthermore, we have envisioned capitalizing 25% of the total market share in E2W by 2030. For which we are passionately innovating and we are definite that by 2030, roads of every part of India will be splashed green by Joy e-bike's efficient and trendy electric two-wheelers.

Currently, we are not only focused on India as we are optimistic that our two jewels - Joy e-bike and Vyom Innovations have the potential to shine brightly in international markets as well. And therefore, today along with exploring the new regions of North-Eastern India, we are also starting export operations in the Middle East, European and African Regions.

38. COVID-19

During the year 2020-21 was a highly disruptive and challenging year wherein the auto industry and the entire global economy faced unprecedented times owing to the Covid-19 pandemic. Many countries witnessed major problems resulting in partial (in some cases complete) lock-downs, thereby hampering production, supply and employment. However, our team has taken key steps in mitigating most of these challenges. The state of preparedness and quick countermeasures taken by the Company led to its growth in sales and other milestones achieved by it during the year. Complying with local laws and protocols, production planning and execution ensured meeting customers' requirements, be it small or big.

Wardwizard Innovations & Mobility Limited is a people-focused organisation and considers every member a part of the larger 'Wardwizard Family'.

In enforcing social distancing to contain the spread of the disease, our offices and client offices all over the world have been operating with minimal or no staff for extended periods of time. To effectively respond to and manage our operations through this crisis, the Company triggered its business continuity management program, chaired by the Chief Operating Officer. In keeping with its employee-safety first approach, the Company quickly instituted measures to trace all employees and be assured of their well-being. Our teams reacted with speed and efficiency, and quickly leveraged technology to shift the workforce to an entirely new 'work-from-home' model. Proactive preparations were done in our work locations during this transition to ensure our offices and training centers were safe. Policy changes related to working from home and IT infrastructure support were rolled out overnight to help our employees shift to this new work paradigm. Continuous communication on the latest updates played a key role in enabling our employees to stay on top of the evolving situation. While the pandemic induced business downturns and economic slowdown reduced the demand and increased the vulnerability of supply chain, our Teams ensured a decent performance amidst such chaos with complete support and understanding with all customers and stakeholders. The goodwill created in such testing times will ensure and facilitate higher growth in the coming years.

F. SUBSIDIARY COMPANY:

The company has sold/disinvested its entire investment of 40,00,000 equity shares of Face Value 10/- each in Property Trading of India Limited (PTOIL) which was a wholly owned subsidiary Company of the Wardwizard Innovations & Mobility Limited (Formerly known as Manvijay Development Co. Limited) to M/s. Pradman Property Consortium of India LLP on 22nd October, 2020. PTOIL was under the previous management control. There are no business activities in PTOIL & present management does not foresee any further business in PTOIL. The Board keeping in view the hardship incurred as the subsidiary company has not received the expected growth, it feels that's its prudent to withdraw investment from the wholly owned Subsidiary and considered the disinvestment in the best interest of the Company. Moreover, when Company requires funds for its expansion plan, it is in the interest of the Shareholders that such unproductive assets/investment to be disposed-off. Hence as on 31st March, 2021

there is no Subsidiary Company of the Wardwizard Innovations & Mobility Limited (Formerly known as Manvijay Development Company Ltd).

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Wardwizard Innovations & Mobility Limited
(Formerly known as Manvijay Development Company Limited)

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Wardwizard Innovations & Mobility Limited (Formerly known as Manvijay Development Company Limited)** ("here in after called the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/ statutory compliances and expressing my opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the Company, during the audit period covering the financial year ended on 31st March, 2021 has complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2021 according to the provisions of:

1. The Companies Act, 2013 (the Act) and the rules made there under;

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF
WARDWIZARD INNOVATIONS & MOBILITY LIMITED
(Formerly Known as Manvijay Development company Ltd)

I. Report on the Audit of the Standalone Financial Statements

1. Opinion

- A. We have audited the accompanying Standalone Financial Statements of **WARDWIZARD INNOVATIONS & MOBILITY LIMITED (Formerly Known as Manvijay Development Company Ltd)** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").
- B. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date

2. Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

3. Emphasis of Matter

We draw your attention to the "Statement of changes in Equity", Notes: No 1 Company Overview, No 36 impact of "COVID 19" of the accompanying financials of the company.

4. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

KEY AUDIT MATTER	HOW THE MATTER WAS ADDRESSED IN OUR AUDIT
<p>1. Issue of equity share warrants on preferential basis and this resulted in compliances with respective authorities. As per statement of Equity Change.</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> • Discussion and review with the compliance team of the management to generate confidence in compliances and transparency of the action undertaken. • Obtaining assurances and certifications for fulfilling of necessary procedures to comply with the change in business activity and model. • Verification of Bank Entries for timely receipts and compliances and regulatory fillings.
<p>2. The Company had commenced the project of setting up of a new manufacturing plant at Ajwa Road Baroda in the state of Gujarat. During the year, the Company has capitalized property, plant and equipment amounting to 15.45 crore. Commercial production from such capitalized property, plant and equipment commenced from February 2021. With regard to the capitalisation,</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> • assessed the appropriateness of the accounting policy for property, plant and equipment as per the relevant accounting standard;

<p>management evaluates the costs incurred and applies judgement to identify costs that are eligible for capitalisation and consequent allocation to specific class of property, plant and equipment. Judgement is also involved in determining when the plant/portion of the plant is ready for use as intended by the management and qualifies for capitalization identified the capitalization of costs incurred for construction of Baroda plant as key audit matter due to the significance of the capital expenditure, risk of inappropriate timing of capitalization and risk that the elements of costs are inappropriately capitalized or classified in accordance with the relevant standard.</p>	<p>on a sample basis, we;</p> <ul style="list-style-type: none"> • inspected the approvals for the costs incurred; • matched direct and indirect costs capitalized with underlying supporting documents to ascertain the nature of costs; • evaluated whether the costs incurred meet the criteria for capitalization in accordance with the relevant standard; • evaluated other costs debited to Statement of Profit and Loss to ascertain whether these should have been capitalized;

5. Information Other than the Standalone Financial Statements and Auditor’s Report Thereon

- A. The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Business Responsibility Report, Corporate Governance and Shareholder’s Information, but does not include the Standalone Financial Statements and our auditor’s report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon
- B. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

6. Management's Responsibility for the Standalone Financial Statements

- A. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
- B. In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

7. Auditor's Responsibilities for the Audit of the Standalone Financial Statements

- A. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.
- B. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- i) Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls
 - ii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management
 - iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern
 - v) Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation
- C. Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in
- i) planning the scope of our audit work and in evaluating the results of our work; and
 - ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.
- D. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- E. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related

safeguards.

- F. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

8. Other Matters

- Your attention is invited to note 5 in Property Plant & Equipment.
- The Company, during the year has disposed-off its sole the Subsidiary Company; refer note 6. Hence for the full Financial Year ending 31 March 2021 the company has adopted only standalone financial results.
- Your attention is invited to note 36 which explain the uncertainty due to COVID. Due to this our attendance at physical inventory verification, exercise done by management, which we could not attend under the Lockdown restriction and we have relied on alternate audit procedures to obtain confidence of the Inventory reported.

Our opinion is not modified in respect to the above.

II. Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
- A. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit
 - B. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - C. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account
 - D. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules,2014
 - E. On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.

F. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure A**”. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company’s internal financial controls with reference to financial statements.

G. With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

H. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i) The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements

ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts

iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor’s Report) Order, 2016 (“the Order”) issued by the Central Government in terms of Section 143(11) of the Act, we give in “**Annexure B**” a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE - A TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **WARDWIZARD INNOVATIONS & MOBILITY LIMITED**. (Formerly known as Manvijay Development Company Ltd) ("The Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and

directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effective as at March 31, 2021, based on internal control over financial reporting criteria established by the Company considering the essential components of Internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the opinion reported above in determining the nature, timing and extent of audit tests applied in our audit of the financial statements of the Company, and the above opinion does not affect our opinion on the financial statements of the company.

Notes forming part of the standalone financial statements

For the year ended March 31, 2021

1. COMPANY OVERVIEW

Wardwizard Innovation & Mobility Limited (Formerly Known as Manvijay Development Company Limited) is Public Limited Company incorporated in India and listed at Bombay Stock Exchange Limited (BSE) & Calcutta Stock Exchange Limited (CSE). The company is engaged in the manufacturing and selling of Electrical Vehicles, Spare parts and other related services. Further the company is also engaged in Trading of Home appliances, White Goods and Digital business process support services.

2. BASIS OF PREPARATION AND PRESENTATION

2.1 Statement of Compliance

The standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments, net defined benefit asset/liability and liabilities for equity settled share based payment arrangements that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. These financial statements are presented in Indian Rupee (INR), which is also the Company's functional currency.

2.3 Operating Cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Revenue Recognition

Revenue is recognised upon transfer of control of promised products or services to customers for an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue excludes taxes or duties collected on behalf of the government.

- Revenue from sale of goods is recognised when control of goods are transferred to the buyer which is generally on dispatch for domestic sales and on dispatch/delivery on local port in India for export sales

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

A liability is recognised where payments are received from customers before transferring control of the goods being sold or providing services to the customer.

Dividend income is recorded when the right to receive payment is established. Interest income is recognised using the effective interest method. Royalty income is recognised on accrual basis in accordance with the substance of their relevant agreements.

3.2 Lease:

Operating Lease: Lease rentals are charged or recognised in the Statement of Profit and Loss on a straight-line basis over the lease term, except where the payment are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increase.

Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Currently, Operating lease expense is charged to the statement of profit and loss.

The company has only short-term leases and hence no impact on transition to Ind AS 116.

3.3 Foreign currencies

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in the Statement of profit and loss in the period in which they arise.

3.4 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the Statement of profit and loss in the period in which they are incurred.

3.5 Government grants

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received. Government grants are recognised in the Statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs, if any, for which the grants are intended to compensate.

3.6 Employee Benefits:

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Payments to defined contribution plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to the Statement of profit and loss. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses or curtailments and settlements);
- net interest expense or income; and
- re-measurement.

The Company presents the first two components of defined benefit costs in the Statement of profit and loss in the line item Employee benefit expense. The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plans.

Short-term employee benefits

Liabilities recognised in respect of wages and salaries and other short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service and are expensed as the related services are provided.

Other long-term employee benefits

Liabilities recognised in respect of other long-term employee benefits such as long-term service awards and compensated absences are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date based on the actuarial valuation using the projected unit credit method carried out at the year-end. Re measurement gain or losses are recognised in the statement of profit and loss in the period in which they arise.

3.7 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets and they are related to income taxes levied by the same tax authority.

Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

The Company elected to exercise the option permitted under Section 115BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Act, 2019. Accordingly, the Company has recognised

3.8 Property, plant and equipment

Property, plant and equipment (including furniture, fixtures, vehicles, etc.) held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any. Cost of acquisition is inclusive of freight, duties, taxes and other incidental expenses. Freehold land is not depreciated.

Property, plant and equipment in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes items directly attributable to the construction or acquisition of the item of property, plant and equipment and capitalised borrowing cost. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. When amounts are withheld for more than 1 year due to protection and safety of the company's interest, such delayed/deferred payment is not discounted, since the intention is protection of the assets and no interest component is intended.

Subsequent costs are included in the assets carrying amount or recognised as a separate asset, as appropriate only if it is probable that the future economic benefits associated with the item will flow to the Company and that the cost of the item can be reliably measured. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised on the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the written down value. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation is charged on a pro-rata basis at the wdv as per the useful lives prescribed in Schedule II to the Companies Act, 2013, other than moulds and dies which are depreciated over a period of 3-8 years grouped under property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and loss.

3.9 Intangible assets

Intangible assets acquired separately Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a written down value over their estimated 8 to 12 years of useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. Internally-generated intangible assets – research and development expenditure. Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in the Statement of profit and loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the Statement of profit and loss when the asset is derecognised.

Useful lives of intangible assets

Intangible assets, comprising of software, expenditure on model fee, etc. incurred are amortised on a straight-line method over a period of 5 years.

3.10 Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is the higher of fair value less costs of disposal and value in use.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

For impairment testing, assets that don't generate independent cash flows are grouped together into cash generating units (CGU's). Each CGU represents the smallest group of assets that generate cash inflows that are largely independent of the cash inflows of other assets or CGU's.

When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of profit and loss. When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Statement of profit and loss.

3.11 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of inventories includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. Costs of inventories are determined on a moving weighted average. Finished goods and work-in-progress include appropriate proportion of overheads. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

3.12 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

➤ Warranties

The estimated liability for product warranties is recorded when products are sold. These estimates are established using management estimates, in absence of adequate past information, regarding possible future instances based on corrective actions likely to be undertaken product faults/ failures. The timing of outflows will vary as and when warranty claim will arise, being typically around one year, hence its discounting is not proposed.

3.13 Financial Instrument

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through the statement of profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through the statement of profit and loss are recognised immediately in the statement of profit and loss.

3.14 Financial Asset:

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through the statement of profit and loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI") (except for debt instruments that are designated as at fair value through the statement of profit and loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in the Statement of profit and loss for FVTOCI debt instruments.

All other financial assets are subsequently measured at fair value.

➤ **Effective interest method**

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in the Statement of profit and loss and is included in the "Other income" line item.

➤ **Financial assets at fair value through the Statement of profit and loss (FVTPL)**

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in the Statement of profit and loss. The net gain or loss recognised in the

Statement of profit and loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

➤ **Investments in subsidiaries and associates**

Investment in subsidiaries and associates are carried at cost in the financial statements.

➤ **Impairment of financial assets**

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights.

➤ **Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on net basis or to realise the assets and settle the liabilities simultaneously.

➤ **Derecognition of financial assets**

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

3.15 Financial liabilities and equity instrument

➤ **Classification as debt or equity**

Debt and equity instruments issued by Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

➤ **Classification as debt or equity**

Debt and equity instruments issued by Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

➤ **Financial liabilities**

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included under 'Finance costs'.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability.

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

➤ **Derecognition of financial liabilities**

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

3.16 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3.17 Earnings per share

Basic earnings per share is computed by dividing the profit after tax by the weighted average number of equities shares outstanding during the year/period. Diluted earnings per share is computed by dividing the profit after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

3.18 Contingent liabilities and contingent assets

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs

3.19 Standards issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2021.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company accounting policies, which are described in note 3, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements: -

(a) **Recoverability of intangible asset**

Capitalisation of cost in intangible assets under development is based on management's judgement that technological and economic feasibility is confirmed and asset under development will generate economic benefits in future. Based on evaluations carried out, the Company's management has determined that there are no factors which indicates that these assets have suffered any impairment loss.

(b) **Defined benefit plans**

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various

assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(c) Provision and contingent liability

On an on-going basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Contingent loss that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Contingent gain is not recognised until the contingency has been resolved and amounts are received or receivable.

(d) Useful lives of depreciable assets

Management reviews the useful lives of depreciable assets at each reporting. Date as at March 31, 2021 management assessed that the useful lives represent the expected utility of the assets to the Company. Further, there is no significant change in the useful lives as compared to previous year.

(e) Impairment of investment in equity instruments of subsidiary and associate Companies

During the year, the Company assessed the investment in equity instrument of subsidiary and associate companies carried at cost for impairment testing. Some of these companies are start-ups or are at early stage of their operations and are expected to generate positive cash flows in the future years. Detailed analysis has been carried out on the future projections and the Company is confident that the investments do not require any impairment.

(f) Government grant

During the year, management has assessed the conditions attached to grants which have been met and has assessed whether the grants will be received or not. Basis assessment, the Company has recognised the government grants in the Statement of profit and loss.

Defined benefit plans:

In accordance with the Payment of Gratuity Act, 1972, the Company provides for gratuity, as defined benefit plan. The gratuity plan provides for a lump sum payment to the employees at the time of separation from the service on completion of vested year of employment i.e. five years. The liability of gratuity plan is provided based on actuarial valuation as at the end of each financial year based on which the Company contributes the ascertained liability to Life Insurance Corporation of India by whom the plan assets are maintained.

These plans typically expose the Company to actuarial risks such as: investment risk, inherent interest rate risk, longevity risk and salary risk

Investment Risk : The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Currently for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Interest Rate Risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase

Longevity Risk : The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk : Higher than expected increases in salary will increase the defined benefit obligation.

The present value of the defined benefit obligation, and the related current service cost, were measured using the projected unit credit method.

and geographic segments of the Company are:

- (i) Domestic
- (ii) Overseas
 - a) USA
 - b) Uganda

Reporting for business segment is on the following basis:

Revenue relating to individual segment is recorded in accordance with accounting policies followed by the Company. All expenditure, which is directly attributable to a project, is charged to the project and included in the respective segment to which the project related. The costs which cannot be reasonably attributable to any project and are in the nature of general administrative overheads are shown as unallocable expenses. The accounting policies of the reportable segments are the same as the company's accounting policies described in note 3.15.

Segment profit represents the profit before tax earned by each segment without allocation of central administration costs and directors' salaries, share of profit of joint ventures, other income, as well as finance costs. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

For the purpose of monitoring segment performance and allocating resources between segments:

Property, plant and equipments employed in the specific project are allocated to the segment to which the project relates. The depreciation on the corresponding assets is charged to respective segments. All other assets are allocated to reportable segments other than investments in associates, investments in joint ventures, other investments, loans, other financial assets and current and deferred tax assets. All liabilities are allocated to reportable segments other than borrowings, other financial liabilities, current and deferred tax liabilities.

32. Segment Reporting (Ind AS 108):

The Group, based on the "Management Approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the Group's performance and allocates resources based on the analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along business segments and geographic segments. The accounting policies adopted for segment reporting are in line with the accounting policies of the Group. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market/fair value factors. Revenue, expenses, assets and liabilities which relate to the Group as a whole and not allocable to segments on reasonable basis have been included under "unallocated revenue/expenses/assets/liabilities"
